SUMMARY

Full Stack Engineer with 2+ years of experience building scalable web applications and AI- powered backend systems. Delivered 10+ projects, including startup MVPs and enterprise CRM platforms. Passionate about building clean, maintainable, and scalable software. Looking for roles where I can contribute to building impactful software solutions.

EDUCATION

MNS University of Engineering and Technology

B.S. in Computer Science

September 2020 – August 2024

EXPERIENCE

Associate Software Engineer

February 2025 – July 2026

Cyberify

On-site

- Developed 3+ AI-powered conversational chatbots that helped organizations automate their workflows.
- Built voice AI agents capable of handling 20,000+ real-time customer conversations with batch calling.
- Developed an AI-driven real estate property evaluation and comparables search platform for real estate professionals, automating 90% of their manual work.
- Built CRM applications capable of handling 10,000+ leads with lead enrichment support and automated conversation handling through 3+ channels.

Full Stack Developer

July 2022 – December 2024

Fiverr Freelancer

Remote

- Got five-star reviews from 10+ clients on Fiverr.
- Worked on a variety of projects, from simple landing pages to complex web applications.
- Collaborated closely with clients to gather and understand project requirements.
- Delivered high-quality, customized solutions tailored to client needs.
- Ensured client satisfaction through effective communication and project management skills.
