SUMMARY

Full Stack Software Engineer with 2+ years of experience building web applications and AI-powered backend systems. Experienced in TypeScript, Python, Node.js, NestJS, FastAPI, PostgreSQL, MongoDB, Kafka, Redis, Docker, and LLM-based applications. Delivered 10+ projects, including MVPs and enterprise CRMs using microservices. Looking for roles where I can contribute to build high quality software solutions.

EDUCATION

MNS University of Engineering and Technology CGPA 3.2
B.S. in Computer Science *September 2020 – August 2024*

EXPERIENCE

Associate Software Engineer February 2025 – July 2026
Cyberify *On-site*

- Developed 3+ AI-powered conversational chatbots that helped organizations automate their workflows using Python, Node.js and LangGraph.
- Built a Sales AI voice calling agent capable of handling 10+ concurrent lead sales calls using Python, FastAPI, Twilio and Vogent.
- Developed an AI-driven real estate property evaluation and comparables search platform for real estate professionals, automating 90% of their manual work using React.js, Nest.js and third party integrations.
- Built CRM applications with event-driven microservices architecture using Kafka and Redis.
- Managed deployments with Docker, AWS, DigitalOcean and Kubernetes.
- Worked with GoHighLevel (GHL), Apollo, RocketReach, Mailgun and Twilio.

Full Stack Developer July 2022 – December 2024
Fiverr Freelancer *Remote*

- Got five-star reviews from 10+ clients on Fiverr.
- Worked on a variety of projects, from simple landing pages to MERN stack web applications.
- Delivered high-quality, customized solutions tailored to client needs.
- Ensured client satisfaction through effective communication and project management skills.

SKILLS

Languages: JavaScript/TypeScript, Python

Frontend: React, Next.js, ShadCN, Zustand, TailwindCSS

Backend: Nest.js, FastAPI, Redis and Kafka for scalable event driven applications.

AI/LLM Systems: LangChain, LangGraph, RAG, AI Agents, STT/TTS, and Twilio integration using SIP protocol.

Databases: MongoDB, PostgreSQL, PGVector, Qdrant

Cloud and DevOps : AWS, DigitalOcean, Docker, Kubernetes and CI/CD

Operating Systems: Ubuntu, Windows, Red Hat Enterprise Linux

PERSONAL PROJECTS

TroveAI — Your Personal AI Assistant View on GitHub
FastAPI, PostgreSQL, SQLModel, Pydantic, LangGraph, Next.js, Docker
Modern, AI-powered conversational web application providing an interactive AI assistant platform with multi-modal support and advanced agent workflows.

SocialArch — Automate Your Social Media View on GitHub

Nest.JS, PostgreSQL, Docker, Next.js

SocialArch is an AI-powered social media management platform that helps creators and businesses create, schedule, and publish content across multiple social platforms. It combines AI content generation, automation, and real-time analytics to simplify workflows and maximize engagement.
